CONTENTS OF VOLUME 10

★

NUMBER 1. *Reactions to Injury*

Scientific Editor: W. G. SPECTOR

		PAGE
INTRODUCTION	*Sir Edward Mellanby*	1
Body-Fluid Distribution in Injury	*F. C. Courtice*	5
Shock Caused by Burns and its Treatment	*J. P. Bull*	9
Remarks on the Diagnosis and Treatment of "Wound Shock" in Limb Injuries	*R. T. Grant*	13
Some Observations on Gross Pulmonary Fat Embolism	*R. T. Grant*	17
The Physiological and Biochemical Disturbances Produced by War Gases	*H. Cullumbine*	18
Blood Transfusion and the Effects of Injury	*Ronald Bodley Scott*	22
Provision of Materials for Transfusion after Injury: Foreword	*Sir Alan Drury*	26
Recent Advances in the Preservation of Red Blood Cells	*P. L. Mollison*	27
Provision of Materials for Transfusion after Injury (*continued*) Plasma Substitutes	*W. d'A. Maycock*	29
Plasma Fractions in the Treatment of Injury	*Margaret E. Mackay*	31
Interrelationship of Metabolic Changes Consequent to Injury	*D. P. Cuthbertson*	33
Effects of Injury on Carbohydrate Metabolism and Energy Transformation	*H. N. Green & H. B. Stoner*	38
Reaction of Enzymes to Injury	*J. D. Judah & W. G. Spector*	42
Demyelination	*J. B. Cavanagh & R. H. S. Thompson*	47
Gas Gangrene	*C. L. Oakley*	52
Tetanus	*G. Payling Wright*	59
Studies on Head Injury	*W. Ritchie Russell*	65
Book Reviews		69

★

NUMBER 2. *Tuberculosis*

Scientific Editor: J. G. SCADDING

INTRODUCTION: Progress in Tuberculosis	*P. D'Arcy Hart*	73
The Decline of Tuberculosis Mortality in Western Europe	*J. C. McDonald & V. H. Springett*	77
The Development and Function of the Chest Clinic in the Control of Tuberculosis	*B. R. Clarke*	82
Problem of the Tuberculous Patient in Industry	*R. Grenville-Mathers*	87
The Detection of Pulmonary Tuberculosis in a Community	*A. L. Cochrane*	91
Vaccination against Tuberculosis with the Vole Bacillus	*A. Q. Wells & J. A. H. Wylie*	96
Relationship between Host Cell and Parasite in Tuberculosis	*G. B. Mackaness*	100
Some Experimental Approaches to the Tuberculosis Problem	*R. J. W. Rees*	104
Recent Developments in Controlled Trials in Pulmonary Tuberculosis	*Wallace Fox*	108
Problems of Drug Resistance	*D. A. Mitchison*	115
Some Problems in Primary Tuberculosis	*John Crofton*	125
Developments in the Treatment of Bone and Joint Tuberculosis	*M. C. Wilkinson*	130
Clinical Use of Antibacterial Drugs in Pulmonary Tuberculosis	*J. G. Scadding*	135
The Diagnosis of Tuberculous Meningitis	*H. V. Smith & R. L. Vollum*	140
A Surgeon Looks at Pulmonary Tuberculosis	*H. R. S. Harley*	145
Long-Term Results of Artificial Pneumothorax Treatment	*A. F. Foster-Carter*	150
Book Reviews		156
Addendum to "Gas gangrene", in Reactions to Injury (Vol. 10, No. 1)	*C. L. Oakley*	160

Book Reviews		156
Addendum to "Gas gangrene", in Reactions to Injury (Vol. 10, No. 1)	*C. L. Oakley*	160

NUMBER 3. *Chromatography*

Scientific Editor: C. E. DENT

		PAGE
INTRODUCTION	*A. J. P. Martin*	161
General Principles of Chromatography	*R. J. P. Williams*	165
Gas–Liquid Chromatography: a Technique for the Analysis and Identification of Volatile Materials	*A. T. James & A. J. P. Martin*	170
Practical Aspects of Paper Chromatography	*R. Consden*	177
Quantitative Determination of Amino Acids	*A. C. Chibnall*	183
Inorganic Chromatography	*F. H. Pollard*	187
Chromatography of Organic Acids	*J. W. H. Lugg*	192
Chromatography of Peptides	*P. N. Campbell & T. S. Work*	196
Separation of Carbohydrates and Phosphoric Esters on Paper Chromatograms	*F. A. Isherwood*	202
Porphyrins	*J. E. Falk*	211
Chromatography of Nucleotides and Related Substances	*Roy Markham*	214
Thyroid Hormones	*Jack Gross*	218
Antibiotics and Vitamins	*Tudor S. G. Jones*	224
Chromatography of Steroids and Sterols	*I. E. Bush*	229
Chromatography of Proteins	*R. R. Porter*	237
Separation of Amino Acids and Lower Peptides by Displacement Chromatography by the Use of Ion-Exchange Resins	*S. M. Partridge*	241
Amino-Acid Metabolism	*C. E. Dent & J. M. Walshe*	247
Book Reviews		251

INDEX TO VOLUME 10

Names printed in large capitals are those of authors who have contributed articles to the symposia. Titles of books are printed in italics. Titles of symposia are printed in bold type.

A

Acids, organic, chromatography of, 192
Alumina, use in chromatography, 187
Amino acids, chromatography by ion-exchange resins, 241, 249
—— —— metabolism, 247
—— —— quantitative determination by chromatography, 183
—— —— separation from biological products, 245
p-Aminosalicylic acid, effectiveness in pulmonary tuberculosis, 136
—— —— resistance to, 115
Anions, chromatographic separation of, 189
Ankle, tuberculosis of, treatment, 133
Anoxia, demyelinating effects, 48
Antibiotics, chromatography of, 224
Anticholinesterases, demyelinating effects, 49

B

BAL (British anti-lewisite), 20
BARCROFT, H. & SWAN, H. J. C.: *Sympathetic control of human blood vessels*, 69
BARRETT, F. C., *see* BRIMLEY, R. C., 251
BENJAMIN, B., *see* BENTLEY, F. J., 156
BENTLEY, F. J., GRZYBOWSKI, S. & BENJAMIN, B.: *Tuberculosis in childhood and adolescence, with special reference to the pulmonary forms of the disease*, 156
Blood cells, red, recent advances in preservation for transfusion, 27
—— loss, estimation after limb injury, 23
—— transfusion after injury, provision of materials, 26
—— —— rate of administration, 23
—— —— value in treatment of effects of injury, 22
Body fluids, distribution in injury, 5
—— —— distribution, normal, 5
Bone, tuberculosis of, treatment, 130
Brain injury, 65
—— —— after effects, 66
—— —— contrecoup, 65
BRIMLEY, R. C. & BARRETT, F. C.: *Practical chromatography*, 251
BRITISH STANDARDS INSTITUTION: *British Standard 1991. Part I. General: Letter symbols, signs and abbreviations*, 252
BRITTON, C. J. C., *see* WHITBY, L. E. H., 70
Bronchiectasis after primary pulmonary tuberculosis, 128
BULL, J. P.: Shock caused by burns and its treatment, 9
BUREAU OF HYGIENE AND TROPICAL DISEASES: *Pneumoconiosis abstracts. Volume I. Reprinted from the Bulletin of Hygiene for the years 1926 to 1938 inclusive, by permission of the Honorary Managing Committee of the Bureau of Hygiene and Tropical Diseases*, 157
Burns, blood transfusion after, 25
—— shock, pathogenesis, 9
—— —— prevention, 10
—— —— treatment, 10
BUSH, I. E.: Chromatography of steroids and sterols, 229

C

CAMPBELL, P. N. & WORK, T. S.: Chromatography of peptides, 196
Carbohydrate metabolism, effect of injury on, 38
Carbohydrates, separation on paper chromatograms, 202
Cations, chromatographic separation of, 189
CAVANAGH, J. B. & THOMPSON, R. H. S.: Demyelination, 47
Cellulose, use in chromatography, 188
Chest clinic, development and function, 82
—— —— effect of National Health Service Act on, 85
CHIBNALL, A. C.: Quantitative determination of amino acids, 183
Chromatograms, paper, preparation of, 177
Chromatography, adsorption, early experiments, 165
—— column, 184
—— for quantitative analysis of amino acids, 183
—— for quantitative estimations, 190
—— gas–liquid, 170
—— general principles, 165
—— inorganic, 187
—— of amino acids, 183
—— —— —— —— by ion-exchange resins, 241, 249
—— of antibiotics, 224
—— of carbohydrates, 202
—— of nucleotides and related substances, 214
—— of organic acids, 192
—— of peptides, 196
—— —— —— by ion-exchange resins, 241
—— of phosphoric esters, 209
—— of porphyrins, 211
—— of proteins, 237
—— of steroids, 229
—— of sterols, 229
—— of thyroid hormones, 218
—— of vitamins, 227
—— one-dimensional, 183
—— paper, 183
—— —— apparatus for, 177
—— —— practical aspects, 177
—— partition, 165
—— **symposium on, 161–250**
—— two-dimensional, 183
CLARKE, B. R.: Development and function of the chest clinic in the control of tuberculosis, 82
Clostridial infection, 52
COCHRANE, A. L.: Detection of pulmonary tuberculosis in a community, 91
CONSDEN, R.: Practical aspects of paper chromatography, 177
Contributors, biographical notes on, 3, 75, 163
Copper deficiency, demyelinating effects, 48
Cortisone, effect on tuberculosis, 104
COURTICE, F. C.: Body-fluid distribution in injury, 5
CROFTON, J.: Some problems in primary tuberculosis, 125
"Crush syndrome", blood transfusion in, 25
CULLUMBINE, H.: Physiological and biochemical disturbances produced by war gases, 18
CUTHBERTSON, D. P.: Interrelationship of metabolic changes consequent to injury, 33
CUTTELL, J. R., *see* KAY, H. D., 157
Cyanogen chloride, physiological and biochemical effects, 21

D

D'ABREU, A. L.: *A practice of thoracic surgery*, 156
Demyelination, 47
—— "allergic", 49
—— due to anticholinesterases, 49
DENT, C. E. & WALSHE, J. M.: Amino-acid metabolism, 247
Displacement analysis, 166
DOUTHWAITE, A. H.: *French's index of differential diagnosis*, 7th ed., 158
DRURY, Sir A., MOLLISON, P. L., MAYCOCK, W. d'A. & MACKAY, M. E.: Provision of materials for transfusion after injury, 26

E

Elbow, tuberculosis of, treatment, 133
Elution analysis, 165
Embolism, fat, pulmonary, 17
Energy transformation, effect of injury on, 38
Enzymes, reaction to injury, 42
Epituberculosis, 127
Erythrocytes, recent advances in preservation for transfusion, 27
Esters, phosphoric, separation on paper chromatograms, 209

F

Faber medical dictionary, 71
FALK, J. E.: Porphyrins, 211
Fat embolism, pulmonary, 17
Fatty acids, chromatography of, 193
FOOD AND AGRICULTURE ORGANIZATION, *see* WORLD HEALTH ORGANIZATION, 157
Foot, tuberculosis of, treatment, 133

FORBUS, W. D.: *Reaction to injury: pathology for students of disease. Volume II. The reactions of submission and adaptation and the disease entities arising out of their elaboration*, 69
FOSTER-CARTER, A. F.: Long-term results of artificial pneumothorax treatment, 150
FOX, W.: Recent developments in controlled trials in pulmonary tuberculosis, 108
FRANCIS, G. E., MULLIGAN, W. & WORMALL, A.: *Isotopic tracers: a theoretical and practical manual for biological students and research workers*, 251
French's index of differential diagnosis, 7th ed., 158
Frontal analysis, 166

G

Gas gangrene, 52; addendum, 160
—— —— infecting organisms, 52
—— —— prophylaxis and treatment, 56; addendum, 160
Gases, poison, physiological and biochemical effects, 18
Gas–liquid chromatography, 170
GRANT, R. T.: Remarks on the diagnosis and treatment of "wound shock" in limb injuries, 13
—— Some observations on gross pulmonary fat embolism, 17
GREEN, H. N. & STONER, H. B.: Effects of injury on carbohydrate metabolism and energy transformation, 38
GRENVILLE-MATHERS, R.: Problem of the tuberculous patient in industry, 87
GROSS, J.: Thyroid hormones, 218
GRZYBOWSKI, S., *see* BENTLEY, F. J., 156

H

HADFIELD, G.: *Recent advances in pathology, by various authors*, 6th ed., 70
Haemorrhage in "wound shock" due to limb injuries, 13
HALL, H. S., *see* KAY, H. D., 157
HARLEY, H. R. S.: A surgeon looks at pulmonary tuberculosis, 145
HART, P. D'ARCY: Progress in tuberculosis; introduction to symposium, 73
Head injury, 65
—— —— after effects, 66
Hip, tuberculosis of, treatment, 132
Hydrocyanic acid, physiological and biochemical effects, 21

I

Industry, tuberculous patient in, 87
Inflammation and repair, 45
Injury, body-fluid distribution in, 5
—— effects on carbohydrate metabolism and energy transformation, 38
—— enzyme reactions, 42
—— metabolic changes, interrelationship of, 33
—— **reactions to, symposium on, 1–68**
—— transfusion after, provision of materials for, 26
—— value of blood transfusion in, 22
Iodine, chromatography of, 218
Ion-exchange chromatography, 187
ISHERWOOD, F. A.: Separation of carbohydrates and phosphoric esters on paper chromatograms, 202
Isoniazid, effectiveness in pulmonary tuberculosis, 136
—— resistance to, 115
Isonicotinic acid hydrazide. *See* Isoniazid

J

JAMES, A. T. & MARTIN, A. J. P.: Gas–liquid chromatography: a technique for the analysis and identification of volatile materials, 170
Joints, tuberculosis of, treatment, 130
JONES, T. S. G.: Antiobiotics and vitamins, 224
JUDAH, J. D. & SPECTOR, W. G.: Reaction of enzymes to injury, 42

K

KAY, H. D., CUTTELL, J. R., HALL, H. S., MATTICK, A. T. R. & ROWLANDS, A.: *Milk pasteurization: planning, plant, operation, and control*, 157
Knee, tuberculosis of, treatment, 132

L

LEE, J. A.: *A synopsis of anaesthesia, 3rd ed.*, 158
Lewisite, physiological and biochemical effects, 20
Limb injuries, "wound shock" in, diagnosis and treatment, 13
LUGG, J. W. H.: Chromatography of organic acids, 192
Lung irritant gases, physiological and biochemical effects, 20
—— resection, mortality in, 146

M

McDONALD, J. C. & SPRINGETT, V. H.: Decline of tuberculosis mortality in western Europe, 77
MACKANESS, G. B.: Relationship between host cell and parasite in tuberculosis, 100
MACKAY, M. E.: Plasma fractions in the treatment of injury, 31
McOMIE, J. F. W., *see* POLLARD, F. H., 251
MARKHAM, R.: Chromatography of nucleotides and related substances, 214
MARTIN, A. J. P.: Chromatography; introduction to symposium, 161
—— *see* JAMES, A. T., 170
MATTICK, A. T. R., *see* KAY, H. D., 157
MAYCOCK, W. d'A.: Plasma substitutes, 29
MELLANBY, Sir E.: Reactions to injury; introduction to symposium, 1
Meningitis, tuberculous, diagnosis of, 140
Metabolic changes in injury, interrelationship of, 33
MITCHISON, D. A.: Problems of drug resistance, 115
MOLLISON, P. L.: Recent advances in the preservation of red blood cells, 27
MULLIGAN, W., *see* FRANCIS, G. E., 251
Muscle, clostridial infection producing gas gangrene, 52
MUSHIN, W. W. & RENDELL-BAKER, L.: *The principles of thoracic anaesthesia past and present*, 156
Mustard gases, physiological and biochemical effects, 18
Mycobacterium tuberculosis. *See* Tubercle bacillus
Myelin sheath, degeneration of, 47

N

NEEDHAM, A. E.: *Regeneration and wound-healing*, 69
Nerve injury, 47
Nitrogen balance after injury, 33
Nucleotides and related substances, chromatography of, 214

O

OAKLEY, C. L.: Gas gangrene, 52; addendum, 160
Organic acids, chromatography of, 192

P

PARTRIDGE, S. M.: Separation of amino acids and lower peptides by displacement chromatography by the use of ion-exchange resins, 241
PAS, effectiveness in pulmonary tuberculosis, 136
—— resistance to, 115
Penicillins, chromatography of, 224
Peptide derivatives, chromatography of, 197
Peptides, adsorption chromatography of, 198
—— chromatography of, 196
—— ion-exchange chromatography of, 198
—— lower, chromatography by ion-exchange resins, 241
Phosphoric esters, separation on paper chromatograms, 209
Plasma fractions in treatment of injury, 31
—— substitutes, 29
—— transfusion, in treatment of burns shock, 10
Pneumoconiosis abstracts, vol. 1, 157
Pneumothorax, artificial, long-term results, 150
POLLARD, F. H.: Inorganic chromatography, 187
—— & McOMIE, J. F. W.: *Chromatographic methods of inorganic analysis, with special reference to paper chromatography*, 251
Polymyxins, chromatography of, 226
Polyoxyethylene ethers, effect on tuberculosis, 106
Porphyrins, chromatography of, 211
PORTER, R. R.: Chromatography of proteins, 237
Protein hydrolysate amino acids, separation of, 244
Proteins, chromatography of, 237
Pulmonary fat embolism, 17
